

## WINS SCHEDULE OF EVENTS

(From 01 August to 31 December 2019)

EVENT TITLE	KEY OBJECTIVES	DATE	LOCATION
<p><b>Training Course for Libyan Scientists, Technicians and Engineers</b> (This event is by invitation only)</p>	<ul style="list-style-type: none"> <li>— To understand how STE knowledge, skills and professionalism can be an important asset to improve nuclear security</li> <li>— To review personal accountabilities and responsibilities of STEs for helping to maintain security</li> <li>— To explore the role of managers in influencing behaviours and attitudes towards security amongst their staff.</li> </ul>	<p>06-08 Aug. 2019</p>	<p>Tunis, Tunisia</p>
<p><b>Training Course on Effective Nuclear Security Regulation for Egyptian Regulators and Operators</b> (This event is by invitation only)</p>	<ul style="list-style-type: none"> <li>— To identify the key elements of regulatory framework for nuclear security and better understand the role and responsibilities of the State, the Regulatory Body and the Operators</li> <li>— To review factors contributing to effective regulation</li> <li>— To learn methods for enhancing regulatory performance</li> </ul>	<p>20-22 Aug. 2019</p>	<p>Vienna, Austria</p>
<p><b>Table Top Exercise for Scientists Technicians and Engineers (STEs)</b> (This event is by invitation only)</p>	<ul style="list-style-type: none"> <li>— To better understand the fundamental role of the human factor in security</li> <li>— To explore the personal accountabilities and responsibilities that STEs have for security</li> <li>— To better understand the intersection between nuclear safety and security and how to integrate the disciplines</li> </ul>	<p>2-4 September 2019</p>	<p>PDPU University India</p>

EVENT TITLE	KEY OBJECTIVES	DATE	LOCATION
<b>Roundtable to review cyber security matters related to radioactive source security</b>	<ul style="list-style-type: none"> <li>— To better understand the cyber threat and how it relates to radioactive source security</li> <li>— To review best practices for protecting physical protection systems against cyber threats</li> <li>— To explore the importance of cyber security for the safe and secure use of radiation devices</li> </ul>	10-11 September 2019	Vienna, Austria
<b>Side Event on Aviation/nuclear benchmarking study</b>	<ul style="list-style-type: none"> <li>— To brief the aviation community on the main conclusions of the aviation/nuclear benchmarking study</li> </ul>	19 September 2019 (TBC)	Montreal, Canada
<b>Training Course for Scientists Technicians and Engineers (STEs)</b> (This event is by invitation only)	<ul style="list-style-type: none"> <li>— To understand how STE knowledge, skills and professionalism can be an important asset to improve nuclear security</li> <li>— To learn about the fundamental role that human reliability and trustworthiness plays in security</li> <li>— To review what STEs can do to resolve communication gaps between their community and security professionals</li> </ul>	25-28 Sept. 2019	Amity University, Noida, India
<b>Workshop on the security of disused radioactive sources (in cooperation with ISSPA)</b>	<ul style="list-style-type: none"> <li>— To identify the key steps of a comprehensive strategy for the management of disused sources</li> <li>— To listen to experiences in effectively securing disused sources</li> <li>— To identify areas of improvement and propose solutions for a safe and secure end of life management for radioactive sources</li> </ul>	08-09 October 2019	Vienna, Austria

EVENT TITLE	KEY OBJECTIVES	DATE	LOCATION
<b>Workshop on Maintaining effective security during the decommissioning of nuclear facilities</b>	<ul style="list-style-type: none"> <li>— To identify the security challenges related to each phases of the decommissioning process and to listen to the lessons learned by those who have implemented security arrangements during the decommissioning process;</li> <li>— To discussing how security needs related to the decommissioning process can be addressed from the earliest stages of the lifetime of a nuclear facility;</li> <li>— To discuss best practices for ensuring a regulatory oversight which is commensurate to the evolving risks</li> </ul>	19-20 November 2019 (TBC)	Vienna, Austria
<b>Workshop on the Security of Small Modular Reactors (SMRs)</b>  (This event is by invitation only)	<ul style="list-style-type: none"> <li>— To review and discuss all security matters related to the design, commissioning and operation of SMRs</li> <li>— To discuss security by design and address interfaces with safety and safeguards matters</li> <li>— To assess the impact of SMRs on the fuel cycle facilities and on the regulatory framework</li> </ul>	20-21 November 2019	Ottawa, Canada
<b>Workshop on Violent Extremism and Insider Mitigation</b>	<ul style="list-style-type: none"> <li>— To learn about the processes leading to radicalisation and violent extremism, and better understand motivation, intention and capabilities of violent extremists (VEs)</li> <li>— The discuss the role of different stakeholders involved in mitigating the VE threat</li> <li>— To identify best practices for vetting procedures and other trustworthiness checks prior to personnel recruitment and during employment.</li> </ul>	03-05 December 2019	London, UK
